boco Air Wear. Design and Safety.

Wherever people meet, clothing is a symbol of identity. The way we see each other and want to be seen is influenced by what we wear. boco is a specialist in textile communication. We provide stylish designs and customized services for every industry.

boco Air Wear accompanies you through a busy day of airport activities. You can choose from many options: Specially designed for maintenance or ramp services. High visibility garments in many styles and colours – looking distinctive and functional in restaurant, catering and counter services. Mixed or corporate, standardized or customized, boco stands for competence in textile. Many aviation customers have become partners, relying on boco's high end design and comprehensive services.

↑ AirBerlin Technik
Functional workwear in corporate design. For maintenance or ground handling. This line can be extended with windstoppers or safety accessories fashioned in Gore-Tex® to become a full package.

← Lufthansa
Not only highly visible, but fully protected against foul weather. Manufactured in Gore-Tex® this corporate safety hi-viz jacket repels cold and rain. Functional design makes it a best friend out on the ramp.

CWS and boco are the leading international service brands in the area of washroom services, work wear, flat linen and dust control mats. Our innovative and comprehensive offerings make us the ideal service partner for your business.

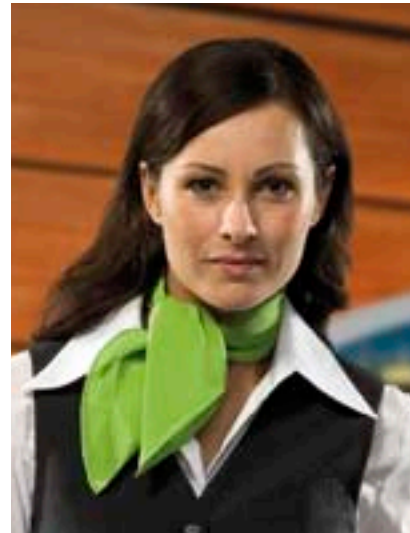

boco and CWS provide well-experienced know-how in functionality and design as well as focused communication and contact with customers: to know what our customers like, to know what they need. boco and CWS ensure your working world is a comfortable one. boco and CWS offer more.

In dialogue with the customer – Business fashion comes in customized designs and universal lines.

Ranging from suits to accessories and shirts, boco is high profile Business fashion.

Emblems, logos and accessories convey your professional image.
